

Updating Vendor Contact Information

Updating your Contact Information with the CERT/CC

If you haven't yet, please contact the CERT/CC at cert@cert.org and provide the following information:

- Primary email contact address for security/vulnerability handling at your organization (may be a person, or an general email)
- For secure communication, please provide a PGP public key for us to use. For more information on using PGP or obtaining the CERT/CC's PGP key, please see [Sending Sensitive Information](#).

Once you have updated your contact information with the CERT/CC, please see [Working with the CERT/CC](#) for more information on what to do next.
