Contributions to BFF

- The CERT Basic Fuzzing Framework (BFF) contains code by Allen D. Householder (adh) and Will Dormann (wd). Contact the authors at their (userid) at cert.org.
- CERT Triage Tools was written by Jonathan Foote
- Crash minimization was inspired by Dan Rosenberg's FuzzDiff <http://code.google.com/p/fuzzdiff/>
- Crash uniqueness is based on a technique described in "Dynamic test generation to find integer bugs in x86 binary linux programs" by David Molnar, Xue Cong Li, and David A. Wagner <http://portal.acm.org/citation.cfm?id=1855773>
- CERT Triage Tools 1.02 test cases were originally written by Josh Bressers of Red Hat, Inc. (bressers at redhat dot com)
- BFF uses Sam Hocevar's `zзуf` for fuzzing and crash detection. <http://caca.zoy.org/wiki/zzuf>
- BFF was originally created by Will Dormann.
